

## Pole and Ground mount Systems

### Large Ground Mounts (LGM)

- Fixed tilt, easy to assemble pipe structures
- Designed to specific site requirements
- Power Rail™ top-clamping system
- TIG-welded, high strength aluminum fittings
- Heavy duty stainless steel hardware
- Schedule 40 pipe supplied by installer

### Roof Ground Mounts (RGM)

- Standard version features single column of modules in landscape
- Low Profile design incorporates modules side-by-side in portrait
- Two-tier RGM features two rows of modules in portrait
- High-strength aluminum extrusion construction
- 20-65 degree telescoping one-piece leg or fixed tilt designs
- Factory set holes eliminate measuring and drilling
