

HYDRAULIC PUMP

Application:

This hydraulic pump is a portable device with foot drive. This pump is used for assembling and repairing works in places where the power source is limited to access. It is equipped with hydraulic cable ended with PM fast connector. The pump co-operates with head of hydraulic press GPH-300 and GPH-300 E.

* Notes:

An order of hydraulic cable with another length - .10 m or. 16 m is possible.

Cat. No.	60045
Working pressure	380 bar
Working liquid	Hydraulic oil HL-46 (HL-32)
Working capacity of hydraulic system	0,5 dm ³
Standard length of hydraulic cable	2,0 m
Length	450 mm
Mass	9,2 kg
